Nothing used to be as awesome as a Brabus Mercedes. People just used to kneel at the sight of a classic CL with black paint and big wheels, but nowadays they make a bit of everything. The tuners target everything from vans to the smart car, and while the end result is cooler than the original vehicle, the brand is clearly being diluted.

Just in case anybody wants one, Brabus has already targeted the brand new compact people mover from Mercedes, the B-Class. A complete line of upgrades are ava... [...]
