The Opel Astra GTC has received a present at the recent Essen Auto Show, i nthe form of a modification package coming from Steinmetz. The tuning house has brought light touches to the tech, interior and exterior sides of the vehicle and we shall start with the first ones.

The Steinmetz Opel GTC communicates to the road via a lowering suspension that reduce the ride height by 30 mm and a set of 19-inch rims that come with a sporty design and are wrapped in 245/40 rubber. The engine range has b... [...]
