Mercedes CL-Class Black Edition V2 by Prior Design

22/05/2012 11:44 by admin

When it comes to building wide-body tuning kits, you won’t find a tuner that does a better job than Prior Design. Heck, it was only a few months ago when they released a wide-body kit for the Mercedes CL-Class luxury coupe. Apparently, it didn’t take them too long to build off of that with what they call "version 2" of the Black Edition program. Similar to what we saw previously, Prior Design really went balls-to-the-wall on the Black Edition V2, dressing up the CL-Class with a package that’s far sportier and more aggressive than its predecessor. For this program, Prior Design fitted the Mercedes with a slew of new bodykit components, all of which are made from Dura-Flex Fiber Reinforced Plastic. The kit includes a new front bumper, a front lip spoiler, larger side skirts, a rear bumper and diffuser, a new front hood, and mesh grilles.[...]
