Since it was introduced in 2009, the Mercedes SLS AMG has become a favorite among tuning companies, so much so that we've seen enough unique iterations of the Mercedes supercar to last us a few lifetimes. Not that we're complaining because we frankly won't get tired of ogling over this supercar. Recently, another tuning company joined the parade of modified SLS AMGs, proving that you can never have enough of something as sexy and beautiful as this galloping, gullwing hyperbeast. For MKB, subtlety is the name of the game, so unlike some of their more bombastic contemporaries, the German tuning firm went about and gave the SLS AMG a performance package that can go pony-to-pony with anything its contemporaries have to offer despite not having a whole lot of styling changes done on the car.[...]
