

Dutch Man Builds Alfa Romeo GTV Bi-Motore with Two V6 Engines and 487HP [with Videos]

08/03/2011 04:24 by admin

?What do you do when the power of an engine is no longer sufficient?? asks Stephan Lenior, the man behind Squadra Tuning, on his company?s website. While the solution for the majority would have been a heavily modified or perhaps a completely different engine altogether, for the owner of the Alfa Romeo tuning company based in Holland, the answer[...]
