Some might say that the limited-edition BMW 1-Series M Coupe is a bit long in the name, but also one of the most amazing, highly tuned two-door sportscars on the market today. Others might say that it need more silly NFS-like graphics and 450 horsepower to make it more spicy.

German tuner TechTec (silly name, isn't it?) has just revealed that it can offer a high-strung, track-focused version of the 1-Series M Coupe that offers an amazing 450 horsepower from the engine that everybody thought [...]
