

## Ford Mustang &#39;Stage 2&#39; by Roush Performance

02/08/2011 18:14 by admin

ROUSH Performance knows how to dress up a 2012 Ford Mustang and if there&#39;s one thing that sticks out with this upgrade, it&#39;s that they managed to make us like it even if it doesn&#39;t come with a significant bump in output. Takes somebody who really knows what they&#39;re doing to pull that off. So, give credit to ROUSH for getting the job done. Their new Stage 2 program for the 2012 Mustang "only" features styling and handling upgrades. However, where it lacks in engine tuning, it certainly more than makes up for with a wide variety of modifications done to make the car look snazzier while also improving its overall handling. Of course, if you&#39;re looking for something along the lines of more than just better looks and improved handling, you can level up to the tuning company&#39;s RS3 program. That&#39;s going to give you the power boost you&#39;re craving for. But if you&#39;re perfectly happy with your Mustang&#39;s performance numbers, then ROUSH&#39;s Stage 2 upgrade will give you everything you need to make your muscle car a certified eye-catcher.[...]
