

BMW 5-Series H35d by Hartge

21/10/2011 01:45 by admin

Diesel cars often get an unfair rep for not being as powerful as their gasoline counterparts are. That's where tuning firms like Hartge come in. Not much power? Yeah, they'll take care of that. The tuning firm's latest program involves a BMW 5-Series 535d model and it comes with doses of styling and performance modifications. Styling-wise, Hartge's package comes with new carbon casings for the mirrors, a set of Hartge emblems for the bonnet and the bootlid, new 80mm mufflers, a suspension tweak, and a new set of 21" Hartge Classic 2 wheels. Inside, the BMW 535d gets a Hartge aluminum medal on the steering wheel, as well as aluminum pedals, and black velor floor mats. More importantly, Hartge also treated the BMW 5-Series with a sweet performance package, courtesy of an engine conversion that takes the 535d's 3.0-liter twin-turbo straight six diesel engine and improves its output from 295 horsepower and 442 lb/ft of torque all the way up to 354 horsepower and 516 lb/ft of torque.[...]
