

Ram 392 Quick Silver by Mopar Underground

26/10/2011 01:34 by admin

The Ram 392 Quick Silver is a testament on how you can add some serious character to an otherwise "regular" Ram R/T, all thanks to Mopar Underground. As Chrysler's in-house tuning department, Mopar dressed up a Ram R/T for the SEMA Auto Show, complete with aesthetic and performance improvements. The exterior of the 392 Quick Silver comes with a gloss black roof and a three-stage Bright Silver finish that's complemented by anodized red paint on the mirrors, wheels, and grille inserts. Mopar Underground also put in a reverse deep-cowl aluminum hood with functional heat extractors and smoked lenses that act as "covers" for the pick-up's exterior lighting. The 392 Quick Silver also boasts of a Mopar hard tonneau cover that carries an integrated spoiler and finally, a set of 22" Mopar wheels round out the exterior package of the tricked out pick-up. As for the interior, the 392 Quick Silver boasts of high-bolster SRT seats dressed in Katzkin leather with red stitching and accents. Likewise, the steering wheel, shift knob, door panels, and center console trim also carry the same leather and red stitching combination. Entertainment was also carried out by Mopar with the addition of new Kicker speakers that with tweeters and woofers to make for excellent music blasting.[...]
