

2011 SEMA: Mazda2 3dCarbon Concept

01/11/2011 23:55 by admin

Mazda really hasn't managed to impress us at this year's SEMA Show. Adding a bigger engine to the Mazda2 is predictable and boring, and it's not like bolder graphics and blacked out wheels will impress anybody.

It's much the same case with this latest project that was brought to the convention, the Mazda2 3dCarbon Concept that's a bit more down to earth than the Turbo we just showed you.

The concept features a custom body kit with a new air dam, side skirts, a rear lower diffuser and a win... [...]
