

## Vorsteiner Enhances its BMW X5M Aero Package

07/12/2011 20:17 by admin

Owners of the BMW X5M already have plenty of choices when it comes to improving the styling and/or the dynamics of the V8-powered SUV, but the tuning industry never goes to sleep. Vorsteiner has just enhanced its existing styling package for the Bavarian crossover with a new rear diffuser made out of carbon fiber. Other aerodynamic components available from Vorsteiner for the X5M include a vented hood and an add-on front apron.[...]
