

2012 Volkswagen Beetle by B&B Delivers 320 HP

20/01/2012 11:50 by admin

Since the new VW Beetle uses Golf engines and gearboxes, we expect the vehicle to receive an infinity of tech tuning packages and we are here to talk about such a development. German tuner B&B has developed a set of tech updates for the vehicle, seriously increasing the power.

The 2.0-liter turbocharged four-cylinder engine, which allows the driver to play with 203 hp and 280 Nm (207 lb-ft) when it leaves the factory, has received five stages of power boosting: 240 hp, 250 hp, 265 hp, 295 hp ... [...]
