

Sneak peak at a 1088 horsepower electric Croatian supercar

21/01/2012 20:00 by admin

Rimac Automobili, the Croatian car builder that brought us the blisteringly fast electric BMW E30, is planning to show their first electric vehicle concept to the world at this week's Frankfurt Motor Show. According to the manufacturer their all electric supercar will produce 1088 horsepower and 2800 ft/lbs of immediately available torque. [...]
