

Jessica Barton's Supra Dyno Test Video: 1165rwhp on Nitrous

26/03/2012 19:13 by admin

Youtube High Tech Corvette has posted a video of one very special little black 1994 Toyota Supra, one that belongs to the bombshell Jessica Barton. The big news is that it was the most powerful car to dyno at TX2K12, putting out 11655 rear wheel horsepower. The car was recently dynoed at just 865rwhp on boost.

The car packs a whole bunch of other drag racing goodies, such as a Tilton Clutch, Turbonetics 76mm turbo, built shortblock(je pistons/carillo rods), valve springs,Hks 272 cams, titan f... [...]
