

Volkswagen Golf R32 Colored Using Golf Balls? [Video]

11/05/2012 16:40 by admin

Do you like the visual treatment received by the Mk IV Golf R32 in the adjacent video? We do and we think we know how the car got it. The owner must've taken the hot hatch out on a golf course and asked the players to hit it with colored balls. If we use the hint offered by the mirrors, we can say that the original color of the car was red, so it was touched by black, grey, blue and white golf balls. I... [...]
