

DMC Remembers the Lamborghini Murcielago with New M-GT Package

27/06/2012 03:13 by admin

You can't get a new Lamborghini Murcielago ?at least not from the factory- but for those that already own the Aventador's predecessor, German tuner DMC has readied a new performance and styling program. DMC says it starts by removing the V12 engine from the Italian supercar and performing a series of modifications that include among other things, the addition of 12 unique single intake throttle plates instead of 6, new gasoline pumps and lines, an ECU optimization and a custom exhaust system.[...]
