Wheelsandmore has recently got its hands on an Audi R8 GT Spyder and played with all the sides of the topless supercar. The story of course starts with the road connection, which is established via a set of the tuner's 6Sporz² wheels, which come in a size of 20x9.5 inches for the front axle and 20x11 inches for the rear one, suing Continental Sport Contact 5P rubber (245/30 up front and 295/25 at the rear). Customers ca... [...]
