

Ferrari FF on PUR Wheels [Photo Gallery]

16/07/2012 16:26 by admin

The Ferrari FF is a brand new car, built by Maranello for the guys who wanted all-wheel drive for their supercar. This car combines a 660 horsepower V12 engine with Ferrari's 4RM system and an innovative 7-speed gearbox. SR Auto Group has fitted a white Ferrari FF with a set of 21-inch PUR Wheels to create what they call Project Vindicator. Hidden behind the PUR 1NE Monoblocks are red brake calipers. The FF also sits ... [...]
