

Skipper Tuning Nissan GT-R: Excellent Aero Effects, Vossen Wheels - Video, Photo Gallery

06/05/2015 19:22 by admin

Tracking down a Japanese tuning project is always hard work, since their language isn't all that Google-friendly. But this Nissan GT-R made by Skipper Tuning is totally worth all the work we had to put in. In January 2015, this metallic blue machine was the subject of an extensive photo shoot organized by American wheel specialists Vossen. They traveled to Yokohama and just like us, they were amazed by the complexity of the Skipper b... [...]
