

Dodge Charger Hellcat HPE800 By Hennessey

24/08/2015 12:13 by admin

Since its inception in the early 1990s, Hennessey Performance Engineering has been looking for ways to improve vehicles from just about every

brand available in the U.S, including GM, Ford, Chrysler, Ferrari, Porsche, and McLaren. The Texas-based company even managed to set an unofficial world record record for street-legal cars with the Hennessey Venom GT, a heavily modified 2015 Lotus Exige S Club Racer that hit 270.49 mph. Now, about a year after Dodge launched the 2015 Dodge Charger SRT Hellcat, the world's fastest, quickest, and most powerful sedan, Hennessey announced plans to develop an upgrade package for Mopar's four-door muscle car.[...]
