

## Wald Body Kit for the 2010 Lexus RX 350

The new Lexus RX honestly looks like a big refrigerator, specially in white! Now though there might be a solution for this problem. Wald is introducing its Black Bison Sport Line bodykit for the RX, and as usual it is black (well obviously!) and very cool. Still, the front-end does not look very well, while things are much better at the back.

The Sports Line Black Bison body kit is available for both RX350 and RX450 and includes: Front spoiler, Side step door panels, Rear skirt with LED brake light, Rear gate spoiler and exhaust system with D.T.M Sports Muffler. Add to that some huge wheels and you are good to go. If you are an owner of the Lexus RX, believe me this kit is a must for your car!
