

G-Power Hurricane GS

11/01/2011 23:25 by admin

After releasing the Hurricane RR and Hurricane RS, G-Power has revealed details on the Hurricane GS, a BMW M5 equipped with an LPG system. And in true G-Power form, the new GS model has already established a world record becoming the fastest LPG car in the world. The new Hurricane GS is offered with a G-POWER SK II bi-supercharger system that increases the output of the engine to an impressive 660 hp and 650 Nm of torque. With this amount of power under the hood the GS is capable of sprinting from 0 to 62 mph in only 4.6 seconds and from 0 to 124 mph in just 11.4 seconds. Top speed has been established to a record of 201 mph.[...]
