

Ford F-350 Super Duty by Airhead Kustoms

13/01/2011 05:50 by admin

Airhead Kustoms, along with Cars by Kris, have displayed the Pit Boss at the 2010 SEMA Auto Show. The Boss is the ultimate tow and support vehicle built off of a 2011 Ford F-350 Super Duty platform. Built to haul a race car to the track and serve as a mobile pit, the truck offers a bed-mounted tire cage and custom swing-case toolboxes.

Next to the impressive exterior package, the Pit Boss package also features a Snow Performance water/methanol injection system, Nitrous Express diesel nitrous system, and an AFE Power cold air intake that no doubt bump up the power of this rugged machine. There is also a DJM Suspension setup, Hellwig anti-roll bars, and Firestone Ride-Rite air helper springs to control the added brawn.[...]
