

## 2011 Mev Exocet

13/01/2011 19:57 by admin

We know summer days are far, far away, but anyone looking for a cool summer kit car should meander on over to the Mev Exocet. This kit car begins with a Mazda MX-5 Miata, tacks on an extra £2000 (around \$2,500) in components and labor, and ends with a vehicle that looks like it belongs in the dunes. Mev claims doing the conversion is easy and can be done without professional assistance, but we’d play it on the safe side and ask for help anyway. Of course, if anyone is feeling froggy, then they may want to start the project now so it can be ready by the time the summer heat rolls in.[...]
