

Jeep Wrangler by Project Kahn

01/02/2011 02:09 by admin

Project Kahn may have a thing for LandRover models, but the British tuner has settled right in with another luxurious SUV: the Jeep Wrangler. They may have only added a cool new black exterior color and some impressive wheels, but the result was top notch nonetheless. The new set of 19" RS wheels was designed by Kahn and truly highlights the Jeep's beautifully aggressive exterior. The set has been designed to take the original center cap from Jeep and will be available immediately. The price is set at a reasonable £185+vat in silver and £195+vat in black and will be available in limited stock. The tuner recommends the wheels be fit with size 275 x 55 x 20 tires.[...]
