

Brabus Presents the World's First Euro 6 Compliant Performance Kit for Diesel Models

01/02/2011 21:31 by admin

Mercedes-Benz tuning specialist Brabus has presented a new ECO PowerXtra D6S performance kit for the S350 BlueTec, and by doing so, the company claims to have created the world's first tuned diesel-powered car that meets the Euro 6 emissions standard, scheduled to go into effect in 2014. Available for both rear-wheel drive and 4MATIC four-wheel...
