

Mercedes CLS by Brabus

04/02/2011 23:59 by admin

With the new generation Mercedes CLS recently launched it was just a matter of time until it would caught tuner's attention. And it did, time time from Brabus. This time they have only focused on the standard version, but a more powerful kit based on the CLS63 AMG model has also been announced. Their package for the CLS includes both interior and exterior updates, but also a pretty impressive engine update. While for the standard CLS the tuner revealed no details, they promised that for the AMG version the 5.5-liter twin-turbocharged V8 engine will be tuned to deliver an impressive 730 HP (up from a standard of 525 HP).[...]
