

Mini Cooper Works by CoverEFX

07/02/2011 19:13 by admin

CoverEFX revealed early last year an impressive tuning package for the Volkswagen Touareg. But now the tuner turned their attention to a much smaller model, a Mini Cooper Works. The package starts with an impressive exterior updates that includes a fully foil-finished body in black leather style with thousands of small gold specimens glued individually by hand on the dark leather. The car sits on a new set of wheel in combination of matte black and matte gold metallic OZ LM rims called Wave 7x17 ET37.[...]
