Back in the 90?s, Mitsubishi?s Lancer Evolution high-performance program was one of the most popular things to come out of Japan. Those days sure were fun for Mitsubishi. Unfortunately, the Evolution program doesn?t hold the same cache as it used to, but nevertheless, it still carries a lot of weight as far as performance cars are concerned. Bulgarian tuning firm, Vilner, is determined to bring the Lancer EVO X back to prominence with interior upgrades and even brought in one of its contemporaries, Overdrive, to take care of the exterior and performance improvements[...]
