

EDS Creates a 360HP Monster out of the Opel Astra Turbo

25/02/2011 17:18 by admin

With the OPC version of the new Astra still in the works, German tuners are doing their best to offer Opel buyers several alternatives to quench their thirst for power. EDS, a relatively unknown tuner from Marl, Germany, has launched an impressive package for the most powerful version of the Astra with the 180HP 1.6-liter turbocharged engine[...]
