

The 230 mph, V12-powered case for Compressed Natural Gas [Tuner Cars]

25/02/2011 19:18 by admin

____ Billionaire T. Boone Pickens tried to convince the world CNG was the fuel of the future, but the possibility of a Civic-heavy future excited no one. He should have started the conversation with this — the Speedriven 800-hp CNG-powered V12 Mercedes roadster[...]
