

Audi R8 V10 Biturbo by MTM

26/02/2011 02:22 by admin

Just a few months ago, we caught wind of a prototype vehicle parked outside of tuning company MTM's headquarters in Germany. This prototype carried the name Audi R8 V10 BiTurbo and was rumored to pack crazy amounts of power underneath its capable hood. Fast forward to the present and that prototype seems to have developed into a full-fledged tuning package and is headed to the 2011 Geneva Motor Show. MTM chose to use the 5.0L V10 engine used on their Audi RS6 Clubsport for this model as well, but the RS6's 730hp rating still falls short of what MTM accomplished with the R8 BiTurbo. The R8 V10 BiTurbo is now capable of 777 hp and 888 NM of torque. Yep, 777 HP. With these updates, the MTM R8 will sprint from 0 to 60 mph in 3.0 seconds, from 0 to 124 in 9.37 seconds, and will hit a top speed of 217 mph[...]
