

ABT R8 GT S

02/03/2011 00:43 by admin

What does it take to transform a good looking car into an amazing piece of fiery carbon fiber goodness? Well, for starters, it takes tons of carbon fiber (a given), a red exterior paint job, and an engine update fit for a street king. Potential suitor, meet your mate in the Audi R8 Spyder made over by ABT Sportsline. Their package, called the R8 GT S, made its world debut at the 2011 Geneva Motor Show and instantly grabbed hold of our hearts. For this project, ABT took the standard V10 engine and updated its output to an impressive 620 HP, up from the standard 525 HP. The result is a 0 to 60 mph sprint time of just 3.6 seconds and a top speed of 198 mph. But the most impressive feature for the new R8 GT S is its exterior and interior look. ABT has chosen to dress up the Audi R8 in full carbon fiber garbs, from the bonnet to the rear wing, and then doused it with a sleek red paint finish. The same treatment has also been applied in the interior.[...]
