

Audi TT-RS Roadster by O CT

04/03/2011 20:28 by admin

The Audi TT-RS will soon be headed to US shores and what's better is that tuners are coming up with all kinds of packages for the luxury sports car that we will soon be able to take advantage of as well. The latest package comes from O.CT Company and takes the German sports car to a higher power with some handling improvements and an aesthetic upgrade. While in its standard version, the Audi TT-RS develops a total of 340 HP and 450 NM of torque out of its turbocharged 2.5-liter engine, but O.CT has taken that power to a total of 420 HP and 570 Nm. In order to get this 80hp bump, the tuner opted for changing the hardware components in conjunction with the reprogramming of the vehicle's electronics. The conversion kit used includes a stainless steel exhaust system including silencer and rear silencer with control valve, a charge air cooler kit, and a revised management of the TFSI engine.[...]
