

VIDEO: This is How They Imagined Our Automobile Future in 1948

11/03/2011 02:25 by admin

In the late 1940s, as the world started to recover from the wounds of war, people were trying to leave the past behind and focus on the future. In fact, some individuals were so fascinated with the future that they tried to tune in it and predict the outcome. In this nostalgic video, we see how some people imagined the future of automobiles in[...]
