

Porsche Panamera by DMC

17/03/2011 16:46 by admin

Here we are again. Another German tuning company, DMC, has taken its own stab at a Porsche Panamera, giving the popular flagship sedan a performance and aerodynamic package that keeps in line with the company's vision of designing "simple yet dynamic" tuning programs. Among the additions given to the body of the Panamera are a new carbon fiber front lip spoiler, carbon fiber side grills, and a carbon fiber rear diffuser. All three parts not only give the Panamera aerodynamic improvements, but also showcases a more aggressive Porsche sports sedan. In terms of performance, DMC took the sports car's 4.8-liter twin-turbo engine and bumped up the output from its standard 500 horsepower and 516 lb/ft of torque all the way up to 580 horsepower and 605 lb/ft of torque, courtesy of an OEM integrated sports button.[...]
