

Dodge Challenger Supercharger Package by Lingenfelter

21/03/2011 21:07 by admin

Owners of the 2008-2010MY Dodge Challenger will be relieved to know that their cars aren't going to be left out on the tuning arms race of later year models after noted tuning firm Lingenfelter announced a performance package for these specific Challenger models. Breath easy now, folks. The supercharger package for the Challenger will include a Magnuson TVS2300 supercharger in black powdercoat finish, a 160-degree thermostat, upgraded fuel injectors, and a high-flow intake system. Lingenfelter's Dodge Challenger Supercharger Package will be available for the HEMI 5.7-liter and 6.1-liter engines and according to Lingenfelter, tests done on the 6.1-liter HEMI engine produced 500 rear-wheel horsepower and 450 lb/ft of torque.[...]
