

Ferrari California by Savini

29/03/2011 00:22 by admin

With summer teasing us from just around the corner, we thought this photo shoot of a Ferrari California with a smoking hot model was the perfect way to start our week. Peeling our eyes away from model, Laura Elisa, for just one moment finds us with a matte white California decked out in a new set of Savini wheels (21x9 front and 22x11.5 rear) with a carbon fiber outer rim. This outer rim is color matched with the wheels's gloss black face. Add Ms. Elisa back in to the picture and you get a deadly combination perfect for the long summer beach rides. As for the engine, no modifications were needed to make this Ferrari beach ready. The California already comes with a 460 HP V8 engine launches the sports car up to 60 mph in less than 4.0 seconds.[...]
