

Dodge Mopar Charger Special

06/04/2011 19:17 by admin

Chrysler's aftermarket company, Mopar, is preparing their latest tuning project for the Dodge Charger. Following in the reins of the 2010 Mopar Challenger, the tuning company is turning its attention to the 2011 Charger to make it one of the fastest, meanest, and more powerful Chargers out on the market. According to Pietro Gorlier, Mopar's president and CEO, the company is working hard to make the Mopar '11 Charger a step up from what was a successful 2010 Challenger model. "After the success of our Mopar '10 Challenger, we moved on to the iconic Dodge Charger and added even more performance," he said.[...]
