

Dodge Mopar Ram Runner Stage II

08/04/2011 03:31 by admin

Ford F-150 SVT Raptor is a car with almost no competition on the market. But things are about to change now that Mopar has announced the Ram Runner Stage II for the annual Moab Easter Jeep Safari which takes place April 16-24. The Ram Runner Stage II kit will be available for any 2009-2011 Ram 1500 models starting next month. Prices will be as follow: pre-runner stage II lift kit - \$13,270; off-road front bumper - \$1,250; off-road rear tire carrier \$1,010; off-road front fenders \$1,020; off-road rear fenders - \$1,350. The Ram Runner Stage II features a HEMI 5.7-liter V-8 engine; larger tires, additional ground clearance and a sophisticated suspension system capable of withstanding tremendous impact. Inspired by trophy trucks, steel front fenders and rear bed-sides are replaced with fiberglass layered in the Liquid Metal Mopar racing scheme. The high-clearance wheel wells allow tremendous suspension articulation with zero tire-to-body interference.[...]
