

Maserati GranCabrio by Novitec Tridente

11/04/2011 20:19 by admin

With an affinity towards Italian sports cars, Novitec has taken to great lengths to ensure the utmost quality and style for Ferrari and Maserati models alike. We've already seen tuning programs for Maserati models such as the GranTurismo and the Quattroporte, so the next logical step for the primed tuning firm is the GranCabrio. Some may have expected this package to have come out long before it has, but perfection takes time and adding 150 HP to the sports car is rather close to perfection. Joining the power upgrade is a top speed that has been increased to 187 mph and a subtle aerodynamic package.[...]
