

Ford Mustang SMS 302 White Label by SMS Supercars

14/04/2011 00:01 by admin

Steve Saleen is a man that knows his American muscle. The former race car driver and the man regarded as the founder of Saleen has a very soft spot for muscle cars, particularly the Ford Mustang. As somebody that has been around American auto scene for most of his adult life, Saleen understands that while muscle cars may be powerful in stock form, there's always room for improvement. So the man and his team over at SMS Supercars decided to release three new trims of the Ford Mustang Boss 302: the White Label, the Yellow Label, and the Black Label. The most basic of the three editions is the SMS 302 White Label, which comes with comes with a 5.0-liter naturally-aspirated V8 engine that produces 440 horsepower. On top of that, the White Label edition also comes with a new performance suspension system, a new exhaust, an exterior body kit, and a slew of interior improvements.[...]
