

Chevrolet Camaro by Callaway

15/04/2011 03:15 by admin

Aftermarket company, Callaway Cars, prides itself on building ?powerfully engineered automobiles? that are systems-engineered for the 21st century. Flowery words aside, these boys definitely know how to get things done, especially when it comes to their work on the 2011 Chevrolet Camaro. While there seems to be a proliferation of tuned-up Camaros in the market today, Callaway was able to differentiate itself from the rest of the pack with their new SC572 package. The program consists of both aerodynamic and performance upgrades, highlighted by an engine package that takes the Camaro?s 426-horsepower, 6.2-liter V8 engine with a peak 420 lb/ft of torque all the way up to 572 horsepower and 541 lb/ft of torque.[...]
