

Brabus Boosts Output of New V8 BiTurbo in Mercedes S500 and CL500 and S63 and CL63 AMG Mo

27/04/2011 22:17 by admin

Longtime Mercedes-Benz tuner has released a performance package for the latest S500 and CL500 as well as the S63 and CL63 AMG models, which are fitted with Stuttgart's new V8 bi-turbocharged engines. In addition to the powerplant enhancements, the German tuning firm has also developed a range of cosmetic and handling upgrades. Starting with the S500 and CL500 models, Brabus offers two different engine tunes for the 4.7-liter twin-turbocharged V8. The first kit includes a new ECU priced at ?4,900 (~US\$7,160), which bumps output from 435HP and 700Nm to 482HP and 780 Nm (575 lb-ft).[...]
