

Mercedes SLK R172 Accurian RS by Piecha

11/05/2011 00:14 by admin

Summer is just around the corner so to prepare your vehicle for those long rides on the beach, Piecha Design is offering their new "Accurian RS" package for owners of the Mercedes SLK. It doesn't provide any extra oomph, but it will ensure the driver is riding in style with some nice exterior updates. The new Accurian RS package combines a new front spoiler lip with lateral grids and a nifty cover that turns the grids into a three-part piece. The front of the Mercedes also gets LED daytime running lights on the right and left side before shifting the eye to the new side skirt covers and then the new rear diffuser (available in small or large versions). Still at the back of the car, the owner will receive QUADRO 4-tube mufflers on a reworked AMG styling rear apron and a classic rear spoiler lip. [...]
