

Carlsson Gives the Mercedes-Benz E-Class Cabriolet more Power and Poise

13/05/2011 23:04 by admin

German aftermarket specialist Carlsson released a new tuning package for the Mercedes-Benz E-Class Cabriolet, offering 20 percent more power, a new aero package and interior improvements. All these are available for the E 350 CDI model, whose 3.0-liter V6 diesel engine delivers 231 horsepower out of the box. As expected, Carlsson didn't think that was enough, so it developed the C-Tronic Diesel Power CD28-35 REVO package that consists mainly of ECU remapping
