The 230 mph, V12-powered case for Compressed Natural Gas

24/05/2011 20:10 by admin

Billionaire T. Boone Pickens tried to convince the world CNG was the fuel of the future, but the possibility of a Civic-heavy future excited no one. He should have started the conversation with this — the Speedriven 800-hp CNG-powered V12 Mercedes roadster.[...]
