

Project Kahn-Tuned Range Rover Sport 3.0TD V6 Davis Mark II Limited Edition

05/06/2011 18:55 by admin

The Davis Mark II limited edition tribute is the latest addition to Project Kahn's long line of tuned Range Rovers. We are not sure who the vehicle is named after, but for educational purposes [sic?] we found several people with the name Mark Davis on Wikipedia ranging from a British adult film actor to a cricketer, so feel free to take your pick. Back to the tune, Project Kahn's newest creation is based on the 2011 Range Rover Sport powered by a 3.0-liter V6 turbo diesel and comes with both styling and performance modifications.
