

Porsche Cayenne Gets KW Lowering Suspension

07/06/2011 06:19 by admin

Tuners love to play with cars - it's what they do. However, some vehicles offer aftermarket developers greater satisfaction than others. Why? The answer is simple - because they are friendlier, offering a huge tuning potential. One of the cars is Porsche's SUV, the Cayenne.

The vehicle, now in its second generation is like LEGO for tuning companies and thus modification kits for it will never stop coming. The latest package of this kind comes from suspension specialist KW, which tempts you [...]
