And the train of Volkswagen Touareg tuners continues to grow. The latest to join the German SUV's tuning fan club is Hofele-Design with its new Royal GT 470. The upgrade package is comprehensive and includes modifications to the exterior, interior as well as the chassis and the available V6 diesel. The tuning shop's aero kit comprises of a new front apron with integrated LEDs on both corners, matching wheel arch extensions, side skirts and a rear apron housing a diffuser and a choice of two different sets of exhaust tail pipe designs. A hood scoop, Hofele-Design's bespoke front grille and 20- or 22-inch alloy wheels complete the changes.[...]
